

Meet Me in the City
Adam Doleac (BMI)/Sarah Buxton (BMI)/Andy Skib (ASCAP)

Blue sky baby, green-eyed lady
Keeper of the spare key to my heart
Say I'll see you, say it'll be soon
'Cause I can't get you outta my head, outta my head

So meet me in the city where the sun don't set
Let's do anything we ain't ever done yet
Baby, I'll give you a night that you'll never forget
Meet me in the city where the sun don't set
'Cause I can't sleep when I dream about you
Wanna be the trouble that you get into
Want you in my arms, we'll figure out the rest
Meet me in the city where the sun don't set

One way ticket wherever you pick it
There's no quick fix for how high I get on you
Dive in your eyes where the streetlights
Stay on all night, baby, tell me when, tell me when

Meet me in the city where the sun don't set
Let's do anything we ain't ever done yet
Baby, I'll give you a night that you'll never forget
Meet me in the city where the sun don't set
'Cause I can't sleep when I dream about you
Wanna be the trouble that you get into
Want you in my arms, we'll figure out the rest
Meet me in the city where the sun don't set

Meet me in the city, meet me in the city, meet me in the city
Where the sun don't set
Meet me in the city, meet me in the city, meet me in the city
Where the sun don't set
Meet me in the city, meet me in the city, meet me in the city
Where the sun don't set
Meet me in the city, meet me in the city, meet me in the city
Where the sun don't set

So meet me in the city where the sun don't set
Let's do anything we ain't ever done yet
Baby, I'll give you a night that you'll never forget
Meet me in the city where the sun don't set
'Cause I can't sleep when I dream about you
Wanna be the trouble that you get into
Want you in my arms, we'll figure out the rest
Meet me in the city where the sun don't set
