“A yearning dance track”

– The Fader

(New York- April 1, 2016) London producer/writer/artist **Digital Farm Animals**, known for collaborations **with Netsky, Dua Lipa, Galantis, will.i.am**, and more, releases the video for new track “**Wanna Know ft. R Kelly**” via Sycos Music/Ultra Records/RCA Records. Click [here](#) to watch it now.

DFA makes a small cameo in the light-hearted video which follows a young man’s night time adventures. Starting off in a nightclub bathroom stall, the video depicts the protagonist's efforts of getting the girl, and takes you along for the ride, bumping into obstacles along the way. Comments DFA: "This video captures the madness and fun that the DFA project embodies. No one plans a

night out transforming into a pig, but everyone wishes they could have a night like this."

[The Fader](#) premiered the track upon its release on 3/19 and acclaimed dj/radio personality [Pete Tong](#) premiered it via his Winter Music Conference Radio 1 show broadcast from the **Ultra Music Festival** in Miami.

DFA's new single comes on the heels of writing and remixing **Dua Lipa's** acclaimed "[Be The One](#)," his outstanding vocal performance on **Netsky's** "[Work It Out](#)," and "[Rio](#)," as well as for his acclaimed remix of **Amy Winehouse's** "[Stronger Than Me](#)" (DFA's remix of Winehouse's "Stronger Than Me," is the first and only rework ever approved by her family since she passed away). He has previously collaborated with **will.i.am, MNEK, Galantis, Cash Cash**, and others and provided remixes for the likes of **Icona Pop, Lily Allen, K Stewart** and more.

Influenced by eighties synth-funk, classic house and disco, DFA is slowly building an extensive body of work.

DFA's debut single "[True](#)" surpassed a million Spotify plays and half a million views on YouTube and British music icon **Elton John** listed Netsky's '[Rio](#),' featuring DFA as one of 'Top 15 Tracks to Listen to Now' in the *Sunday Times*.

Upcoming projects include work with **Galantis, Anne Marie, Cash Cash, will.i.am** and more.
