From the hysterical “Broken Pussy,” performed by the show’s creator and Golden Globe-nominated star Issa Rae, featuring Kelis, to Thundercat’s “Heartbreaks + Setbacks,” the collection of music from both indie and established artists touches on a variety of social and relationship issues highlighted in the series.

“Music is such a huge part of Issa’s life on the show,” said *Insecure* creator and star Issa Rae. “She uses it to channel her emotions and work through her insecurities – and we worked hard to make sure the music on the soundtrack reflected Issa’s story and the stories of all of our characters. I’m so excited to get this soundtrack in the hands of viewers who have responded so enthusiastically to the music and the show.”
