

MIGUEL'S "SKY WALKER (SPANISH VERSION)" OUT NOW!

[March 23, 2018 – New York, NY] Grammy Award-winning singer/songwriter **Miguel** has released a Spanish version of his hit "Sky Walker" which has reached #1 at Rhythm and Urban radio in the US and is now charting at Top 40. Miguel kicked off last year with this first single featuring Travis Scott, which has garnered nearly 200M streams worldwide and is certified Platinum in the US. Now, the single keeps growing in a new direction. Click here to listen to the remix <http://smarturl.it/spSkyWalker>

The new "**Sky Walker (Spanish Version)**" is the first in a series of Spanish language versions of **War & Leisure** tracks, **Miguel's** fourth studio album. The popular Argentinean singers/songwriters, **Dante Spinetta** and **Emmanuel Horvilleur** were in charge of the Spanish adaptation.

Miguel also joined Mexican pop singer **Natalia Lafourcade** on the song "**Remember Me**" from the Pixar record-setting film *Coco*. Both artists performed this Oscar winning track on the Academy Awards in the beginning of March.

The album **War & Leisure** (ByStorm Entertainment/RCA Records), released last December, is a meditation on the duality of our times. **Miguel** has described this album as his "most upbeat", equipped with features from **J. Cole, Rick Ross, Travis Scott, Kali Uchis, Salaam Remi, and QUIÑ**.
