Walker's latest release "Diamond Heart" feat. Swedish vocalist Sophia Somajo is available now via MER Recordings/Sony Music Sweden/RCA Records. [CLICK HERE](#) to watch the video/buy/stream "Diamond Heart." More new music news coming soon.

["Diamond Heart"](#) is the final single/video in the *World Of Walker* trilogy, presenting Walker's futuristic, post-apocalyptic sci-fi storyline as seen in the "Darkside" and "All Falls Down" visuals, all presenting hopeful views for the future with majestic landscapes. The video before "All Falls Down," "Tired" directed by Alexander Halvorsen, served as a prequel to the trilogy where a solar storm destroyed all technology on earth, changing the course of humanity forever. These videos, storyline and concept are the brainchild of MER Records creative director Kristian Berg.

Previous trilogy single ["Darkside"](#) has enjoyed over 300 **million streams** between the video and audio track combined, and ["All Falls Down"](#) has exploded with **OVER 650 million audio and video streams globally**, held the #1 spot on *Billboard's* Dance Club Songs Chart, and enjoyed play on Top 40 radio stations.

The enigmatic young DJ, known for his masked performances, enjoyed a sold out European headlining tour this year, performed at Electric Zoo Festival, Lollapalooza **Coachella, EDC Las Vegas, Tomorrowland** and **Lollapalooza South America**, and joined label mate Kygo on tour for select North American dates.

In the past two years, 21-year-old Alan Walker has gone from learning music production via YouTube tutorials and posting music online for free to performing to sold-out crowds and playing dates with the likes of **Rihanna** and **Justin Bieber**. Currently, Alan has been certified **Gold and/or Platinum in 32 countries**.

Alan's fan base first exploded when the gaming community's use of his music made him one of the most streamed artists globally with **over 14 billion streams worldwide to date**. His debut single **breakthrough single "Faded," now 2x certified platinum is the seventh most-liked video on YouTube of all time** with over 5.8 billion streams worldwide. He boasts over 19 million followers on YouTube alone. On *DJ Mag's* annual poll where people from all over the world voted for their favorite DJs, Alan moved up 38 places on this year's list to number 17. Alan was also awarded the magazine's "Highest Climber" award, which celebrates the DJ that moved up the list in ranking the most in the span of a year.

Alan made his U.S. television debut this past January with **"All Falls Down,"** joined by **Noah Cyrus** on ***The Tonight Show Starring Jimmy Fallon***. He also performed at the League of Legends World Finals in a packed SRO Beijing National Stadium concert, where the historic Beijing Olympics Opening Ceremony was held.
