Early Praise for Winnetka Bowling League:

"("On The 5" is) an undeniably anthemic pop song about the thoroughfare connecting Southern California and our less fortunate citizens to the north... An L.A. song through and through, it certainly sounds like a hit." – Los Angeles Times

"It's classic beach pop nudged out of retro stasis by subtle production flourishes ... not to mention catchy as a sea breeze." - Buzzbands LA

"Winnetka Bowling League injects us with the infectious Xanax-like coastal vibe with their latest single "Feeling California." Using imageries of the Golden State, WBL capture the warmth and youthful spirit that permeates the air. It's the type of track that convinces you to soak the sun and refuse to let summer go" - Aupium

"This thing's blood is literally made of California, and reeks of suntan lotion, gasoline, blue skies, flowers, and the breeze rushing through the windows of a '92 Subaru . It longingly dreams about the legendary Summer of Love (1967) and references both Revolver, and Pet Sounds in the most romantic and wistful way possible. This isn't hyperbole I swear, all this stuff is in the actual song which is as sweet and swell as can be." - Picking Up Rocks
