About Sasha Sloan

After emerging in 2017 and appearing on a handful of high-profile collaborations, Sasha Sloan released her debut single “Ready Yet,” which has amassed over 23 million streams on Spotify alone. Since then, she has established herself as a true wordsmith, an artist’s artist, who crafts potent melodies filled with poignant lyrics. “Normal,” a track on her debut ep *sad girl*, which was released in early 2018 via RCA Records, has been heralded by Billboard as a “catchy introvert anthem.” Sasha Sloan has garnered over 350 million streams from *sad girl* and her most recent EP, *Loser*, which was released in late 2018. These emotionally-rich, left-of-center pop releases lead to her late night debut on The Late Show with Stephen Colbert earlier this year with a performance of “Older.” She has received a ton of critical acclaim with [Entertainment Weekly](#) declaring her one of the 6 artists who will break big in 2019, PAPER Magazine saying “With songs this resonant, one thing Sloan can’t fake is her talent.” Idolator also noted, “Everything the singer/songwriter has released since launching her artist project has been excellent...” Sasha also was ranked #1 by Idolator in their “[The 20 Best EPs, Mixtapes & Playlists of 2018](#)” list. She has already built up a formidable live show and a rabid fan base that lead to her selling out her North American and European headline runs this year.
