### **About Lykke Li**

Lykke Li has become an iconic staple of the indie-pop world with a decade spanning career. **Noisey** declared her "the high priestess of cool pop." She has performed at revered music festivals including Glastonbury, Lollapalooza and Coachella, to name a few. **Time Magazine** wrote of her latest studio album **so sad so sexy**, Li is as "ethereal and haunting as ever on her new album...she deigns to bless us with songs that are gentle and searching, but with sharp pop and a few well-chosen hip-hop edges." **Fader** declared the album "...one of the most anticipated pop releases this year...the tracks are, indeed, very sad and very sexy...The Swedish singer's fourth album combines her open-wounded songwriting with a new pop sound. ...terrific new record." **Pitchfork** concurred about the album as having "inventive sonic choices around every corner...It's a futuristic quiet storm, and there's no shelter." **NPR** describes her artistry:"Lykke Li has always found her own path through pop music. She is and isn't a part of that landscape, instead dancing along its edges where the grass grows wild."
