The digital debut comes as anticipation for TOOL’s fifth album, *Fear Inoculum* (RCA Records), builds. On the outfit’s recent North American and European tours, the Los Angeles-based band projected the album’s release date, Aug. 30, from the stage, while playing two new songs from the forthcoming collection: “Invincible” and “Descending.”

TOOL formed in 1990, releasing four multi-platinum studio albums: *Undertow* (1993), *Ænima* (1996), *Lateralus* (2001) and *10,000 Days* (2006); two EPs: *72826* (1991) and *Opiate* (1992) and the limited-edition boxset *Salival* (2000). The band has won three GRAMMY Awards®: Best Metal Performance (1998, “*Ænima*”), Best Metal Performance (2002, “*Schism*”) and Best Recording Package (2007, *10,000 Days*). TOOL is Danny Carey (drums), Justin Chancellor (bass), Adam Jones (guitar) and Maynard James Keenan (vocals).
