Recently, Amazon Music and R&B Rotation produced a brand-new short film with SiR entitled, [Silly For the Westside](#). The short film is a tribute to Inglewood and the Westside of Los Angeles, and features SiR discussing his love for the city, how it's changing, and how it inspired his record, *Chasing Summer*. He touches on issues currently facing residents, including the construction of the SoFi Stadium at Hollywood Park. This short film can be watched [here](#).

SiR's Amazon Original is just the latest moment in the breakout R&B star's meteoric career. The Inglewood native first made a name for himself as a songwriter by stepping in front of the mic and into the spotlight with the release of the HER EP series—*HER* and *HER TOO*, SiR garnered widespread praise and quickly became one to watch. In 2018, SiR released his acclaimed full-length debut album, *November*, featuring production from top talent such as DJ Khalil, Harmony Samuels and more. SiR's latest release, *Chasing Summer*, features a wide-range of music's finest from Kendrick Lamar, Lil Wayne and Jill Scott, to recent TDE signing Zacari, Sabrina Claudio, Smino and Kadhja Bonet. Production from TDE heavy-hitters like Kal Banx, Taebeast and Sounwave, along with notable producers such as Boi-1da, Michael Uzowuru and LordQuest, sets the tone for 14-track musical journey. As showcased throughout all of his music, SiR's powerhouse voice and songwriting skills continue to revamp R&B music like never before.
