(New York- July 27, 2021) Today, Grammy winning singer/songwriter/arranger/producer **Yebba** releases a brand new single with accompanying lyric video **“Louie Bag”** featuring rapper/singer **Smino**.

Listen/Watch it HERE: <https://smarturl.it/LouieBag>

The track was co-written by **Yebba**, **Smino**, **Q-Tip**, and **James Francies** and produced by **Yebba** and **Mark Ronson**.

Yebba shares the inspiration for “Louie Bag” which came to her during a rough period after she lost her mother to suicide:

“Someone said to me, ‘You have to make sure this is not going to make you bitter. Bitterness will rob you.’ And at the time I started that song I was in Resentment City, with all these labels trying to sign me and people pressuring me, telling me, ‘you’re never going to see a deal like this again,’ when I just wasn’t ready. So I said to them, ‘If you ever tell me I’m going to miss my chance or I’m going to run out of time, I will pack my bags and go back to Arkansas and I’ll quit

singing. Because if I say I'm not ready because my mom just killed herself, then I'm not fucking ready. The answer is no.' I don't even own a Louis bag, but when I got my first check from publishing I wrote that line: "Put it in my Louis bag, don't let it overflow." It's for any label that tried to sign me - for all those men talking to me like that. It's me talking about all the confusion and the disarray I was feeling at the time, and delivering that right to their doorstep. I just sent those bad vibes right back to those motherfuckers."

Yebba's debut album ***Dawn*** will be released September 10th via RCA Records. Her previous single "[October Sky](#)" was released last month along with an [acoustic performance video](#) and received critical praise ("a master class in conveying complex emotions" – [NPR](#)) along with love from **H.E.R., Justin Timberlake, Brandi Carlile, Zane Lowe, and Mark Ronson**, who produced "October Sky" and executive produced the album.

Lead single "Distance" was nominated at the 2021 Grammys for "Best Traditional R&B Performance," was included on Barack Obama's annual playlist to extraordinary critical raves. **Clash** writes: 'Distance' is a phenomenal exhibition of Yebba's dramatic vocal ability." **Rolling Stone** concurs "Yebba delivers a characteristically stunning vocal performance," and **NPR** calls the song "the ultimate exercise in restraint. Fully aware of her ability to vocally run circles around any production, she matches the tenderness of the orchestration and lyrics." **Okayplayer** continues "At just 25 years old, Yebba has become an acclaimed vocalist due to her unforgettable sound."

Grammy, Oscar and Golden Globe winning musician and producer **Mark Ronson** executive produced the album, and other key collaborators include **Questlove, the Roots, A\$AP Rocky, Kaytrananda, Pino Palladino, Smino, James Francies, Smokey Hormel** and many more. The album was recorded at New York City's Electric Lady Studios.

St. Louis artist **Smino** has been on quite the feature run over the past two years working with artist like SiR , Doja Cat , J.I.D , J.Cole and more while working on his long awaited follow up to 2018's *NIOR* that he has been teasing for fans is coming in 2021. Smino dropped his Monte Booker produced record *Rice & Gravy* earlier this year as warm up to what's next as the frequently collaborators gave fans their signature sound.
