[New York, NY – September 22, 2021] **Lucky Daye** returns with a powerful new song “**Over**,” featuring a familiar sample from **MusiQ Soulchild’s “Halfcrazy”** released via **Keep Cool/RCA Records**. The single is the first offering since the **Table For Two EP** that arrived earlier this year and comes paired with a highly stylized visual directed by **Machine Operated**, co-starring **Jordyn Woods** as Lucky’s love interest. With his signature velvety vocals, Lucky Daye details a torrid love affair atop a luxurious, string-driven instrumental, describing it as “*nightmares turn into a dream.*” The video features Lucky dealing with the constraints of celebrity culture and a constant loop of pressure and loneliness until he realizes that he must first take care of his relationship with the object of his affection before he can launch himself into the wider world and change it.

New Orleans-native Lucky Daye has always had a deep connection to music and a natural gift for singing and songwriting. His roots led him to pursue his dream by briefly moving to Atlanta

and eventually migrating to Los Angeles, where he has been ever since. He was quickly picked up by Keep Cool under RCA Records and released his 2019 breakthrough hit "**Roll Some Mo,**" which has amassed over **121 MILLION** streams worldwide. Earning first-ever GRAMMY nominations that same year, Lucky Daye raked in a total of four nominations for **Best R&B Song, Best R&B Performance, Best Traditional R&B Performance,** and **Best R&B Album.** This widespread acclaim also came from his selective feature choices with **KAYTRANADA, Buddy, SG Lewis, Big Freedia, Kehlani, Kiana Ledé, Babyface, Victoria Monet,** and more. Lucky released his latest EP *Table For Two* in February of 2021, which has garnered over 20+M streams on Spotify. *Table for Two* features the hit song "**How Much Can A Heart Take**" ft. **YEBBA** and the pair recently performed a heartfelt rendition on **Jimmy Kimmel Live!** The EP follows his 2019 highly acclaimed debut album, *Painted*, and comes off the standout single "On Read" with Grammy-nominated East London prodigy Tiana Major9. His critically acclaimed work has received unanimous praise from [Rolling Stone](#), [NPR](#), [Noisey](#), [Billboard](#), [The FADER](#). "Over" is the first single from Lucky's highly anticipated second full length project slated for release in 2022.
