**LOS ANGELES (April 8, 2022)** – Today, rising artist **MASN** releases his latest single, “**Love Me For Me,**” out now via **RCA Records**.

The message of “Love Me For Me” is one of acceptance, as MASN’s emotive vocals echo alongside a singular guitar melody, finding solace in his partner loving him for who he is despite his flaws and own anxieties. The song was initially teased to fans earlier this year on TikTok and quickly gained traction through its relatable lyrics and custom filter designed by MASN, resulting in nearly 50K creations on the platform.

*“Love Me For Me’ is appropriately titled because the beauty lies in the simplicity of the song. It’s about having someone who loves you for you, unconditionally, despite your imperfections,”* says **MASN**. *“This is a song you would listen to with your person or while daydreaming about having that person, which many of us can admit to doing. Although simply said, it’s a very intimate and powerful song when felt.”*

“Love Me For Me” is the introductory single off MASN’s forthcoming EP, ***This Place Wouldn’t Be The Same Without You***, set for release on **June 3**. His first body of work since his debut project in 2020, *This Place Wouldn’t Be The Same Without You* serves as an exploratory journey of the multi-faceted experience of life. Examining the rollercoasters of love, sadness, grief, joy, devastation, and how each emotion shapes the space around them, the project serves as a reminder to each listener that they matter in this world.
