“...highly original, one-of-a-kind pieces for solo piano...” -*Stereophile*

“...a master of both tone and invention.” -*Austin American Statesman*

[New York, NY – May 6, 2022] Today, renowned pianist **George Winston** releases his 16th solo piano album, ***NIGHT***, via **RCA Records**. By virtue of his brilliance as one of the foremost instrumental composers of our time, *NIGHT* is a vivid look into Winston’s nocturnal world where life begins as the sun sets on each day. *NIGHT* features four original Winston compositions, as well as stunning renditions of **Leonard Cohen’s “Hallelujah”** and **Allen Toussaint’s “Freedom For The Stallion,”** plus additional standout interpretations. Two decades in the making, *NIGHT* turns darkness into a prism of beauty as Winston captures his quintessential performances for a full-length studio album well worth the wait.

George Winston is undeniably a household name. He's inspired fans and musicians alike with his singular solo acoustic piano songs selling more than 15 million albums. Winston's music is evocative, offering us all a chance to take a step back from our perpetually busy lives and let our minds adventurously wonder. *NIGHT* is where things truly come alive for Winston. Whether on a performance stage, in a midnight recording session, practicing late at night, driving solo through urban city spaces, or witnessing nature grow under the moonlight, Winston celebrates his renowned 50-year career with an interstellar new recording for spring 2022.

"*NIGHT* is a collection of songs that I've recorded at five different studios," says **George Winston**. "There is a natural wonder that only occurs in the evening and *NIGHT* basically scales the clock from midnight to 7am. With every dark hour that passes, daytime will soon occur. The sun shines down on the earth all day, it warms the oceans and the forests, and awakens the majority of earth's inhabitants, and at sundown the nocturnal animals wake up for nighttime activities, and there are feelings of solitude and uncertainty. This all translates well for inspiration for compositions and interpretations of other composers' pieces."

George Winston's classic albums, *Autumn* and *December*, are perennial favorites, along with *Winter into Spring*, *Summer*, *Forest*, *Plains*, *Spring Carousel – A Cancer Research Benefit*, his previous album, 2019's *Restless Wind* as well as two volumes of the compositions of **Vince Guaraldi**, two volumes of benefit albums for the Gulf Coast disasters, and four other solo piano albums.

Rolling Stone magazine noted of Winston's music, "Using only a solo piano, and without descending into sentiment, the guy (Winston) can set off dormant synapses in your brain that most musicians cannot hit even with lyrics...It seems to flow from the deepest part of Winston's mind, unimpeded by conscious considerations."
