

## AVAION RELEASES NEW SINGLE “KEEP ON DANCING”

(June 17<sup>th</sup>, 2022) – Today, songwriter and multi-instrumentalist **AVAION** releases his new single “**Keep on Dancing**” via **Sony Music Germany/RCA Records**. Listen [HERE](#).

After years of absorbing and educating himself in the art of the creative process, AVAION discovered, the hard way, that his most refined work comes from a place of profound pain, but even from the darkness he feels within, light still shines. After **13 releases and more than 200 million combined streams**, the severe impact of prior experiences is also a beacon of hope, not just for **AVAION** but many others. While he radiates with a more positive mindset today, **AVAION** remembers the internal suffering that life brings and how it can weigh excruciatingly heavy on the head and heart. He recalls that pain vividly, but beyond that sadness, way over that mountain of agony, lies a breathable place of happiness and escapism. This is what “**Keep on Dancing**” represents—a tender reconciliation with the beauty of what’s positive inside you. **AVAION’s** way out of the darkness was music. Through this music, he can pick apart all the bad and good in life. Reflecting on his feelings in his music is not just a therapy for himself but has become something introspective for his growing base of fans.

Depending on how you’re feeling, music for dancing and dreaming is how **AVAION** has previously described his style. With “**Keep On Dancing**”, he’s concocted the perfect blend of this alchemy.
